## CHERRY APPLE TARE RECIPE

## Ingredients

- 2 packages refrigerated pie crust
- 6 medium Granny smith apples (or your favorite apples), peeled and chopped into small chunks
- Zest of one lemon (optional)
- Juice of 1 lemon, divided
- 1/2 jar <u>Cherchies® Cherry Butter Spread</u> (could substitute <u>Cherchies® Apple Butter Spread</u> or <u>Cherchies® Strawberry</u> <u>Butter Spread</u>
- 6 Tablespoons <u>Cherchies® Apricot Pineapple Preserves</u>
- Cinnamon
- 1/2 cup powdered sugar
- 1 teaspoon water
- Parchment paper

## **Preparation**

- Chop apples into small chunks. Place chopped apples into a large bowl and add half of the lemon juice. Mix apples to coat with lemon juice. Add <u>Cherchies® Cherry Butter Spread</u> (I divided the chopped apples into three bowls and added a different butter spread to each bowl) and mix together. Set aside.
- 2. Preheat oven to 400 degrees. Line a large baking sheet with parchment paper. Remove pie dough from package and "smoosh" (ha!) the dough together until you have one ball of dough. Separate dough into 3 equal portions (I was going to trace dough with a small bowl and cut out circles, but figured I'd have to reroll the scraps anyway).
- 3. Roll out individual dough balls into circles approximately 6 inch circles (it does not have to be perfect...this adds to the rustic factor). Place rolled dough onto baking sheet.
- 4. Leaving about 1 inch around the edge of the dough, spoon apple mixture into center of dough. Crimp edges around tart.
- 5. Sprinkle tarts with cinnamon. Bake tarts in the oven for about 30 minutes, or until crust is golden and apples are soft
- 6. As tarts are cooking, prepare the glaze and the icing. In one bowl, combine the <u>Apricot Pineapple Preserves</u> and the remaining lemon juice. In another bowl, combine the powdered sugar and water.
- 7. Remove the cooked tarts from the oven and while the tarts are warm, brush them with the <u>Apricot Pineapple Preserves</u> and lemon juice mixture. The final step is the icing and completely optional, as the tarts are delicious on their own, but I wanted to make them extras pretty for their "glamour shots". Drizzle the icing when tarts are mostly cooled.
